Retroactive Medicaid

Are You Capturing All of Them?

Everyday... a Self-Pay encounter within your system becomes eligible for retroactive Medicaid reimbursement!

Medicaid timely filing rules dictate a finite period in which a provider can be retroactively reimbursed. That's why it's so critically important to track all of your Self-Pay and Sliding Fee encounters on a daily basis to ensure that you catch every Retro-Billable opportunity the moment it becomes eligible and before it expires.

Everyday... retro-reimbursable Medicaid encounters **EXPIRE** because they aren't discovered and billed in time!

Acting as a safety net, RetroCAID® monitors the eligibility status of every unpaid encounter within your system on a daily basis for 365 days, or until it expires past timely filing. If an encounter becomes eligible for Retroactive Medicaid at any point within timely filing, its immediately caught and reported back to your billing team.
