

Today, these encounters became eligible for..

Retroactive Medicaid!

Unpaid patient encounters can become eligible for retroactive Medicaid at any point within timely filing. Unfortunately, many of these retro-reimbursable encounters will expire pass timely filing before the provider becomes aware of the change to their eligibility status.

The result is hundreds of thousands of dollars in lost Retroactive Medicaid reimbursement for community healthcare providers that need it the most.

Never Miss Another Retroactive Medicaid Opportunity Again!

RetroCAID® automatically monitors the eligibility status of every self-pay and sliding fee encounter within your system on a daily basis. Every self-pay and sliding fee encounter is monitored daily for 365 days or until it expires past timely filing.

If an encounter becomes eligible for Retroactive Medicaid at any point within timely filing, its immediately caught and reported back to your billing team, along with all of the pertinent billing details required for reimbursement.
